

Carbon Reduction Plan

Mesa Care Limited
Company Registration Number:16963186
Publication Date: 26/02/2026

Commitment to Achieving Net Zero

Mesa Care Limited is committed to achieving Net Zero greenhouse gas emissions by 2050, in line with UK Government targets and PPN 06/21 requirements.

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standards for Carbon Reduction Plans.

Baseline Emissions Footprint

Mesa Care Limited was incorporated on 14 January 2026. As a newly established organisation, 2026 is the baseline year for carbon emissions reporting.

Baseline Year: 2026
Baseline Emissions (to be measured and reported for first full operational year)

As a small community-based support provider, emissions are expected to arise primarily from:

- Business travel (staff travel to service users)
- Electricity usage
- Limited office operations
- Purchased goods and services

Full carbon quantification will be completed during the first reporting cycle.

Current Emissions Reporting (Year 1 - 2026/27)

Mesa Care will measure and report emissions across:

Scope 1: Direct emissions from owned or controlled vehicles (if applicable).

Scope 2: Indirect emissions from purchased electricity for office operations.

Scope 3: Required Categories Under PPN 06/21 includes
Business travel
Employee commuting
Waste generated in operations
Purchased goods and services
Downstream transportation (where relevant).

Quantified emissions data will be published following the first full reporting year.
